About us

AFFORDABLE CLEAN ENERGY FOR EVERYONE, EVERYWHERE

New Fortress Energy (NFE) was founded in 2014 with the belief that access to affordable, reliable, cleaner energy is not a privilege, but a human right. Universal access to energy can impact major world issues, from education to poverty reduction to gender equality. Our goal is to create that access — in an environmentally responsible way.

Our mission

WE WANT TO LIGHT THE WORLD

New Fortress Energy is dedicated to emPOWERing communities where we operate by increasing access to quality education, and by training workers and entrepreneurs to drive innovation.

“

As part of our mission to power the world with positive energy, we're dedicated to making philanthropic investments where we believe they will have a lasting impact on the community, economy and environment. Every day, we're working to support the United Nation's Sustainable Development Goals by reducing emissions, increasing access to affordable power and empowering communities across the world. In 2021, the COVID-19 pandemic caused hardship to communities around the world. To better support our communities, we continued our existing environmental and philanthropic initiatives but also expanded our efforts to include health, well-being, food security and equality. We are proud to support our neighboring communities and look forward to another successful year of positive energy.

”

Wes Edens
Founder & CEO of New Fortress Energy

Our commitment to the UN's Sustainable Development Goals

Energy access is central to nearly every major challenge and opportunity the world faces today.

United Nations

We couldn't agree more. We fully support the United Nations' Sustainable Development Goals and are committed to furthering them by providing access to affordable, cleaner energy where it's needed most and making meaningful, positive impacts in the communities where we operate.

UN'S SUSTAINABLE DEVELOPMENT GOALS

Watch out for these tags to learn more about how we're supporting the UN's SDGs!

Building a brighter future

SUPPORTING THE FUTURE OF YOUNG PEOPLE

New Fortress Energy is proud to continue to help emPOWER communities where we operate by bringing the best in academic opportunities, with a focus on science, technology, engineering, and mathematics (STEM) education, to the next generation of leaders, innovators, and entrepreneurs.

Helping today’s scholars create a promising future

Every year our scholarship applicants inspire us with their intellectual curiosity, creativity, and passion to make the world a brighter place. In 2021, we expanded our scholarship programs in Jamaica and Puerto Rico by awarding scholarships to 75 high-achieving engineering students at five universities. We’re proud to play a part in the development and education of our future leaders.

WE INVESTED IN

“

We're very excited about this partnership... which will help to further elevate the engineering programmes at our respective institutions.

”

Dr. Adrian Lawrence
Dean of the Faculty of
Engineering at the UWI Mona

“

We are very grateful to New Fortress Energy for supporting our university's engineering students with the help they need to complete their high school studies for three years in a row. This is a great example of what private companies can contribute to the benefit of the professionals of the future that we need so much for the development of our island.

”

Ernesto Vázquez Barquet
President of the
Polytechnic University

Financial aid helps students prepare for the school year ahead

After a year of disrupted learning, we wanted to ensure students in the communities where we operate entered the 2021-2022 school year feeling refreshed and eager to hit the books, no matter what lay around the corner. To alleviate the financial burden associated with back-to-school preparations, we provided 1,081 primary and high school students with bursaries and vouchers to assist with uniforms, school supplies, external examination fees and tuition.

I'm so happy and grateful for the kind gesture that is being extended by New Fortress Energy to the many students like my daughter who needed the kick start. Thank you so much.

All's fair – and fun – at back-to-school fairs

For the fifth consecutive year, we hosted back-to-school fairs in Jamaica and Puerto Rico to celebrate the start of a new school year. More than 1,600 students received backpacks with fresh school supplies, as well as warm meals, tasty treats, and lively entertainment. In addition, we provided tablets to help 302 students continue learning from the classroom or at home!

We commend New Fortress Energy for this amazing support. It is a demonstration of their commitment to Jamaica and the development of our human capital and the plan to transform this country.

Dr. Kassan Troupe
Acting Chief Education Officer in
the Ministry of Education, Jamaica

“

It was so much fun for kids and families, and a special moment because kids were happy to see each other again.”

Gearing up for the future

We partnered with the Boys and Girls Clubs of Puerto Rico on an innovative solution aimed at removing the barriers that prevent low-income youth from accessing a STEM-focused college education, with the ultimate goal of bringing youth out of poverty through employment. Participants explored STEM opportunities through career days and speaker series, science and technology clubs, and tutoring in math and English.

WE INVESTED IN

200

students

“

What I learned in STEM helps me in my daily life. I had the opportunity to be a resource to teach STEM to the younger community. That experience made me believe as a person and in my job. STEM helps children and youth to develop as human beings and to develop their skills and discover their strengths and weaknesses.

”

Sofia Flores
Participant

Going for the gold

Despite ongoing challenges posed by COVID-19, The University of the West Indies, Mona Campus, was determined to continue to engage primary and high school students in STEM subjects, specifically mathematics. We were proud to support this endeavor by sponsoring the university's annual Jamaican Mathematical Olympiad. This year 2,456 students from 68 schools participated in the Junior Mathematics Olympiad, and 737 students from 18 schools participated in the Senior Mathematics Olympiad.

WE INVESTED IN

4,530
students

“

Mathematics is at the core of every STEM discipline, and we must work to develop and maintain an educational culture that values mathematics.

”

Professor Dale Webber

Pro-Vice-Chancellor and Principal of the University of the West Indies, Mona

Honoring top engineering students

To recognize the importance of the engineering discipline in intellectual development, technological advancement, and economic strength, we partnered with the Jamaica Institution of Engineers (JIE) to select 4 top-performing students from Jamaica's tertiary institutions to receive the Engineering Student of the Year award. The students will also have the opportunity to complete an internship with New Fortress Energy to learn about the liquefied natural gas (LNG) business.

Award ceremony
Jamaica

“

Jamaica continues to benefit greatly from the cultivation of a diverse, highly qualified STEM workforce coming from these institutions, so this award recognition demonstrates that we value their interest in the engineering discipline and potential for outstanding service to Jamaica and the region.

”

Glaister Ricketts
President of the Jamaica
Institution of Engineers

Cryogenics curriculum heats up learning at UWI

For the LNG sector to be successful and sustainable, it's not enough to simply supply this energy alternative. We believe that educating and upskilling the next generation of LNG engineering professionals plays an integral role in this journey. That's why we are especially proud to have expanded our partnership with the University of the West Indies by introducing a cryogenics course to help position Jamaica to compete in the global LNG marketplace. This past year, 18 students participated in this exciting cryogenics program, in which we fully funded all prescribed texts, lab equipment, simulation software tools, and licenses, plus laptops.

“

With LNG being the future of energy, this is no doubt a milestone achievement for the UWI Mona in being the first tertiary institution in the Caribbean to offer a cryogenics engineering course for BSc engineering students.

PHILANTHROPIC GUIDE 2021

Interns get up close and personal with LNG

This year in Jamaica, we welcomed our first engineering interns to our combined heat and power plant (CHP) in Clarendon, the Old Harbour power plant, and the Montego Bay LNG plant in Freeport. The internship was open to students enrolled in the cryogenics engineering elective at the University of the West Indies as part of their engineering degree, as well as engineering students at the University of Technology Jamaica and Caribbean Maritime University. It was aimed at helping aspiring engineers gain meaningful, practical, hands-on experience in the LNG field to become more competitive and more marketable as they transition into the workforce.

WE INVESTED IN

18

summer interns

“

This internship has opened my eyes to how amazing working in the LNG industry can be. I have not had a dull moment since we started, from working with the CRO on-site to working on boat engines as well as traveling to the offshore terminal at NFE's floating storage and regasification unit, which in and of itself is amazing. The team has made this experience extraordinary and has shown genuine interest in our development. They've essentially been mentoring us and have made me eager to want to work with them in the future.

”

Giovanni Buckle

Final-year electrical power engineering
student at the University of the West Indies

Be healthy, be well

MAKING LIFE BRIGHTER FOR OUR COMMUNITIES

The COVID-19 pandemic continued to challenge communities in 2021, affecting food security, well-being, and children's ability to learn. In response, we have not only continued our existing initiatives focused on access to quality education and STEM programs in the communities where we operate, but we have also expanded our reach through relief efforts focused on food security, health and wellness, and online access to education. Our goal through 2022 will be to continue to empower the communities where lives have been disrupted, and to remain a constant source of positive energy.

A clean start is close at hand

To ensure that the children in Clarendon and St. Catherine, Jamaica could maintain safe hygiene when they returned to school face-to-face with classmates in November 2021, the first time in 20 months, we donated hand sanitizers, masks, and 20 handwashing stations – two each at 10 primary and infant schools.

“

This is a further testament that NFE cares wholeheartedly about the future of our nation because they continue to invest so much into our students. This will not only help to protect the students and staff body here at the school, but by extension, our families that we go home to every day.

A Food For The Poor Educational Development Project

Sponsored by

"Whoever gives one such child in my name receives me"
Matthew 18:5

Supporting communities in times of need

Coping through the pandemic has been challenging for all of us, but especially for vulnerable families, where the economic dislocation and impact have been so severe. In partnership with Food for the Poor and the Refinery Community Council, we sent much-needed care packages to more than 800 Jamaican families over the Easter and Christmas holidays. The care packages included rice, flour, cornmeal, buns, cheese, beans, sausages, and oil, as well as toothpaste, toilet paper, bar soap, sanitizer, and face masks. We were proud to serve and support our local communities, especially in times like these when help is needed most.

WE INVESTED IN

Vax facts and more

NFE partnered with the American Chamber of Commerce (AMCHAM) in Jamaica and other corporate sponsors to host the Chamber's first COVID-19 webinar. The COVID-19 Vax Facts and More event featured a panel of experts who shared information about the virus and the vaccines.

Presenters included:

John McIntyre, Chargé d'Affaires at the U.S. Embassy in Kingston, who spoke about the embassy's advocacy for Jamaica and the Caribbean as a whole to receive vaccine supplies from the U.S. government;

Dr. Varough Deyde, Director of the Centers for Disease Control and Prevention (CDC), Caribbean Regional Office, who spoke of the CDC's actions, reports, and response to the pandemic;

Dr. Melody Ennis, Director, Family Health Services, Ministry of Health and Wellness, Jamaica, who shared information about Jamaica's vaccine program; and

Dr. Javier Pérez-Fernández, Medical Director, Baptist Hospital Critical Care Unit, Florida, who provided statistics along with updates regarding the situation in southern Florida.

Chamber members representing more than 50 Jamaican corporate companies and institutions attended the webinar.

Energizing our communities

SUPPORTING OUR PEOPLE AND PLANET

We're committed to bettering our people and planet through sustainable efforts, celebration and recognition.

Cultivating sustainability

In an effort to combat climate change and its impacts, we donated more than 2,000 trees through the Jamaican government's National Tree Planting Program. The locally grown ornamental and fruit tree seedlings were delivered to the Private Sector Organization of Jamaica (PSOJ) for planting as well as households and local farmers in the Port and Refinery Council communities in Hayes, Clarendon, near our combined heat and power plant.

WE INVESTED IN

2,000
trees

“

Environmental sustainability will be critical for our long-term growth. We are very happy to receive this level of support from one of our members, New Fortress Energy.”

Sherpon Baker
Refinery Council, Clarendon

Making every shot count

We're bringing the energy to Africa with our multi-year partnership as a Founding Partner and the Official Energy Partner for the Basketball Africa League (BAL). Together, we're advocating for cleaner, more affordable energy solutions across Africa while supporting the local communities. During the BAL season, tree donations were made to farmers and non-profit environmental organizations throughout Africa. Following the conclusion of the season, youth leaders, energy industry representatives and other stakeholders discussed the links between clean energy, economic growth and public health, with a focus on creating sustainable development and educational programs for African youth.

WE INVESTED IN

Diving in to help female fisherfolk

In partnership with the Caribbean Coastal Area Management Foundation (C-CAM) and the National Fisheries Authority, we honored 22 of Jamaica's female fisherfolk, who have dedicated decades of their lives in service to the local fishing and aquacultural industry. As part of our third year sponsorship, we also provided tablets and back-to-school supplies to students whose parents are part of the local fishing sector. We're hooked on helping our local communities and will continue to ride the wave!

“

We are very happy to be celebrating and honoring these very deserving ladies who have each dedicated more than two decades of their lives to Jamaica's fishing industry in various capacities. They have gone above and beyond and, in some cases, have risked their lives over the years. So, today is about honoring them and showing them how much we value their hard work and dedication to helping our fishing industry survive and thrive.

”

Ingrid Parchment
Executive Director, C-CAM

“

My entire family is in fishing; that's what we live off of. The great thing with fishing is that you and your family will never go hungry because the sea always provides. I'm really grateful for this recognition. I never expected it but it's good to be recognised for your contribution.

”

Millie Mae Amritt
Portland Cottage Fishing Village

Honoring community heroes

We rely on nurses, in a pandemic and beyond, to provide the highest patient care, customer service, and leadership to improve and even save our lives, and those of our loved ones. In December, we showed our gratitude by honoring 9 outstanding nurses in Jamaica for their hard work throughout the COVID-19 pandemic. Selected by the nursing directors at five local hospitals, these nurses were surprised with their awards, each receiving \$100,000 (Jamaican) home improvement shopping vouchers, a keepsake plaque, and a personal care gift basket.

COMMUNITY HEROES:

Sharon Burrell, RN, May Pen General Hospital, Clarendon

Alecia Frazer Moulton, RN, May Pen General Hospital, Clarendon

Sheena Lindo Kerr, Departmental Nurse Manager, Cornwall Regional Hospital, St. James, Montego Bay

Nodia McLeod, RN, Spanish Town Hospital, St. Catherine

Crystal Simmonds, RN, Cornwall Regional Hospital, St. James, Montego Bay

Kimberly Spence, RN, Cornwall Regional Hospital, St. James, Montego Bay

Winnifred Stewart Wellington, Nurse Manager, Linstead Hospital, St. Catherine

Zaphia Stewart, RN, Spanish Town Hospital, St. Catherine

Tanaquio Williams, RN, Lionel Town Hospital, Clarendon

WE INVESTED IN

community leaders

“

I am truly honored and most elated for this award...I am most grateful foremost to God for granting me health and strength to perform my duties and responsibilities.... It is an amazing feeling being acknowledged for altruism, hard work, dedication, and resilience which epitomize the core of a professional nurse. To my nursing colleagues, according to the legendary Bob Marley, 'You never know how strong you are until being strong is the only choice you have.'

”

Nodia McLeod

Midwife, Spanish Town Hospital

Setting the holiday table

We partnered with the Boys and Girls Clubs of Puerto Rico (B&GC) and United Way to deliver meals to 700 families in disadvantaged communities. The meals included pernils, slow-roasted pork legs traditionally shared during the holiday season. The B&GC distributed the meals to its clubhouses, while United Way distributed the meals to youth and elderly centers throughout the island, including:

Asociación Pro Juventud y Comunidad Bo. Palmas
Centro Geriátrico El Remanso, Inc.

Celebrating a fresh start

To celebrate Three Kings Day in Mexico, we collaborated with the Fundación Ayuda Niños La Paz (FANLAP) to deliver 134 Roscas de Reyes (traditional celebratory cakes) to children and seniors. We also arranged to provide 113 uniform vouchers to students so that they could start the new year with a fresh pair of tennis shoes and new school uniform shirts.

WE INVESTED IN

134

children and families

This delivery of Roscas and shoes is the result of our social mission. Thanks to this donation, we continue working to contribute to the welfare of children and the community of La Paz.

Veronica Menchaca
Operational Director of FANLAP

The gifts that keep on giving

We partnered with nonprofit NicaPhoto, Inc., to distribute about 280 holiday gift baskets to children and families at the San Rafael Elementary School in Puerto Sandino, Nicaragua and 120 holiday gift baskets to the children and families of NicaPhoto in Nagarote. The baskets contained food and daily necessities including rice, beans, eggs, oatmeal, oil, sardines, pasta, soap, bleach, and toilet paper.

WE INVESTED IN

500

children

Sharing is absolutely rewarding, filling our hearts with joy and inner peace. I am genuinely delighted in having shared quality time with our work peers, friends, and families, as well as people from the local community of Puerto Sandino, lifting up our spirits in these tough times!

Juan Escalante
Terminal Manager

“

We were thrilled to kick-off 2022 partnering with New Fortress Energy to support the community of Puerto Sandino as well as that of NicaPhoto. NicaPhoto has worked in Nagarote, Nicaragua for 12 years, in the area of education, art and personal development for under served children and youth. It has always been our dream to one day work with the coastal community. It was a fabulous event and beginning of a new partnership with NFE. We are full of hope for the future, as we know that together we can have a large and sustainable impact on these vulnerable communities.

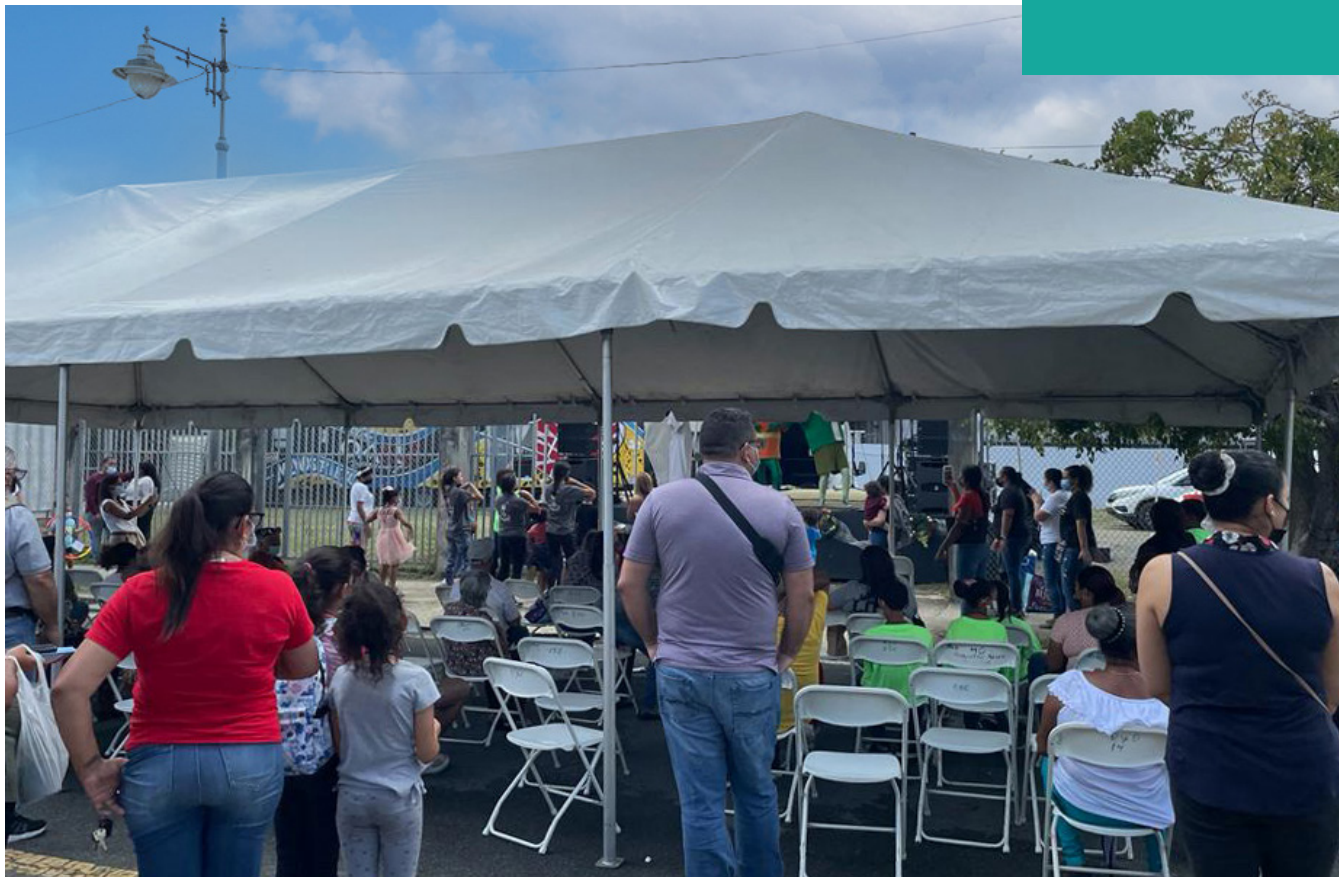

”

Ronnie Maher
Director of NicaPhoto

Sharing holiday cheer

For the third consecutive year, we partnered with nonprofit G-8 to bring Christmas cheer to the community of Caño Martín Peña in San Juan, Puerto Rico. To celebrate, a children's music group performed for families while a caravan composed of a Three Kings group and DJ toured the streets distributing 400 gifts to children at a safe social distance.

“

We thank the New fortress Energy company for the gifts for all the children in the communities. Without their help, many of our children would have not received any toys at Christmas.

”

Lucy Cruz
G8 Communities Director
